## A Word to Republicans.

The hope of the party lies in the expansion of a stalwart Republican press. The Republican who reads or otherwise helps to support a Democratic paper to the exclusion of one of his own party newspapers is untrue to the Republican cause.

Unanimously subscribed to by the National Republican League.

J. S. CLARKSON, President.  
A. B. HUMPHREY, Secretary.

**THE LEDGER...**  
is the largest daily paper printed in Maysville—count the columns and measure their length.  
It gives you more reading matter than any other.  
It is sold at the same price as any other Maysville paper—one cent a copy or 35 cents a month, delivered by carrier or sent by mail. If you are looking for the most for your money, you can get it in THE LEDGER.  
Now is the time to subscribe—suppose you give it a month's trial.

BESIDES the bill to reimpose the Tariff on sugar, Congressman HARTER has introduced a bill providing for the revival of state banks of issue. This ought to do away with the delusion of those Democrats who voted the party ticket only because they did not believe that the return of wildcat currency was a possibility. These men have become so accustomed to good Republican money during the past thirty years that they were quite confident that wildcat currency was now an impossibility. But the men who had inserted in the Democratic platform the recommendation that the tax of 10 per cent. on state bank currency be repealed knew what they wanted, and they propose to get it. A Southern Democrat regard that tax as a grievous infringement of their sacred principle of state sovereignty, and when they are in control they will do their utmost to bring about its prompt removal. The taxed breakfast table and the bank bill detector are among the blessings to be looked for from Democratic rule.

Wildcat Currency.

MOLHALL, the English statistician, who is recognized as the highest authority in his specialty, gives the total manufacturers of the world in 1889 at \$22,370,000,000. Leading Nations are credited with the following figures: United States, \$7,215,000,000; Great Britain, \$4,100,000,000; Germany, \$2,915,000,000; France, \$2,425,000,000; Russia, \$1,815,000,000; Austria, \$1,295,000,000. This industrial supremacy of the United States has been established under Protection since 1865, our wage earners meanwhile paid higher prices than ever before, and the highest in the world.

THAT irrepressible Free-trader, Congressman HARTER, has introduced a bill providing for the reimposition of a Tariff on sugar. Of course it cannot become a law while a Republican Senate and President stand in the way. But it furnishes an indication of what the Democrats will do when they come into full power. The LEDGER warned workmen that a vote for CLEVELAND was a vote for a tax on their own breakfast tables. Those of them who voted for CLEVELAND perhaps thought that our warning was uttered for campaign purposes only. They know better now, and will learn many more lessons of a similar nature before they are many years older.
